

Copesco's expanded bindery...**Keeping Pace with Increased Print On-Demand Volume**

Following on the heels of the complete updating of our digital press department, Copesco has added new equipment to increase the production capabilities of our bindery.

Second Alpha-Doc

We installed a second Spiral/James Burn Alpha-Doc automated punch system that significantly increases our mechanical binding production capacity for wire and plastic-coil bound books.

Quick on the Draw

"The fast setup, speed and versatility of this high-productivity equipment is needed for our bindery to keep pace with the large volume output of our six digital on-demand printing presses," says Copesco President and CEO Steve Johnson.

Many Applications

Copesco's plastic coil and double-loop wire binding allow publications to lie flat for easy referencing.

Both styles are ideally suited to instruction manuals, handbooks, calendars, cookbooks, workbooks, con-

vention and trade show projects and directories.

Plastic coil is stronger than wire and comes in a variety of colors that will enhance your presentation.

The wire binding method is ideal for publications that receive heavy usage and need to lie perfectly flat, with facing pages evenly aligned across from each other.

Great Looking Covers

Copesco's bindery also boasts a new Rosback Model 220 True Line high-speed scoring system.

"Scoring improves the appearance of all types of digitally printed projects by providing a neat, finished look," Steve stated.

A primary application for the new system is the scoring of covers for perfect bound and saddle bound books, directories, reference guides and other publications.

Lamination Complement

The scoring system goes hand in hand with our new laminating system for the covers of a wide variety of technical and marketing materials.

Lamination provides a high-class product with unmatched durability and long shelf life.

Think About Binding First

As we've said before, Copesco recommends that you determine the binding style at the beginning of your project.

Size, intended use, life expectancy and price are important factors that you should consider.

Our production department will help you make the right choice for your project.

Where to Call

We're here to meet all of your digital printing needs with complete bindery, finishing and shipping services.

So, for your next communications project, call the industry leader.

Call Copesco.

Don't Forget the Tabs

While you are thinking about your binding style, don't forget the use of index tab dividers.

Good Organizer

Indexing is a highly effective tool for organizing documents and making them user-friendly.

Copesco runs hundreds of thousands of index tabs in various sizes and styles...plain or with clear or colored Mylar reinforcing.

In Stock

We stock index sheets on the floor, but also offer a variety of paper stock colors and weights.

And, we can imprint and insert tab dividers inline as your project is reproduced. It's faster and more cost-effective.

Ask us for details of our complete indexing capabilities.

Perfect bound covers are scored on the new Rosback 220 unit.

A man came home late from his office, after having spent his entire paycheck. His wife was livid. "Where did all your money go?" "I bought something for the house," he mumbled. "What could you possibly buy for the house," she fumed, "that would cost that much?" He replied sheepishly, "eight rounds of drinks."

Bumper sticker we saw: Honk if you love peace and quiet.

While on vacation, an elderly couple stopped at a roadside restaurant for lunch. After finishing their meal, the woman left her glasses on the table, but she didn't realize it until they were back on the highway. They had to travel quite a distance before finding a place to turn around. The elderly man crabbed and complained all the way back to the restaurant. Finally they arrived, and as

the woman got out of the car the man called to her, "While you're in there, you might as well get my hat, too."

The phone rang at National Security headquarters. "My neighbor Yankel Rabinovitz is an enemy of the State," the caller said. "He is hiding undeclared diamonds in his woodpile." "We'll look into it," the officer said. The next day, a

police squad swarmed Rabinovitz's back yard. They searched through the woodpile, and finding nothing, began chopping up the wood. Still no diamonds. They cursed at Rabinovitz and left. Later, it was the Rabinovitz phone to ring. "Hello, Yankel! Did the goons come to see you?" "Yes," he replied. "They chopped up all my wood." "Good. Now it's my turn," the caller said. "I need them to plow up my vegetable garden."

It's a parallel universe, and I'm diagonally parked.

Throughout the holiday season, the Post Office was inundated with customers. At one point they got so busy they even considered opening a second window.

A waist is a terrible thing to mind.

Experience: what you get just after you need it.

At an Olympic event, a reporter was polling the international visitors: "What is your opinion about the meat shortage?" An Arabian responded, "Excuse me, what's a shortage?" A Russian said, "Excuse me, what's meat?" A North Korean asked, "Excuse me, what's an opinion?" And a New Yorker said, "What's excuse me?"

Q: What do women use to stay young-looking in the Arctic?

A: Cold cream.

Should death AND taxes be simultaneous?
