Only Thing To Fear Is Fear Itself

Fear is a perplexing, dangerous and unpleasant emotion that can cause anxiety and pain, especially in these uncertain days.

Words of Wisdom

Our forefathers dealt with this subject through inspiring expressions like these:

"Nothing is to be feared except fear itself" was written in 1623 by Sir Francis Bacon, an English philosopher and statesman.

David Henry Thoreau, an essayist, poet and philosopher expressed the thought this way in 1831: "Nothing is so much to be feared as fear."

Famous Words

In his March 1933 inaugural address with the nation staring at a Great Depression, Franklin Roosevelt said: "Let me assert my firm belief that the only thing we have to fear is fear itself—nameless, unreasoning, unjustified terror which paralyzes needed efforts to convert retreat into advance."

So, let's take the fear out of our thoughts and look to a brighter day.

Celebrate Small Press Month

March is Small Press Month that celebrates the shining light of many of the great authors and publishers around the world.

The event began in 1996 when it was created by the New York City-based Small Press Center and the Publishers Marketing Association based in California.

The goal was to highlight the smaller publishing companies and to put a spotlight on the authors that are being represented.
